

## 2014 SEA 2 SUMMIT THE GEORGE DRISCOLL TRAIL

The run this year was held in cool overcast conditions. Fortunately the rain stayed away.

Most people who competed enjoyed the event. However behind the scenes there were a lot of issues to contend with hence the problem with the results as they first appeared. The attached results are now in event order as are the male/female positions.

There are however a lot of people with NTR (no time recorded) next to their name. If you did finish and know your time please let the office know and the results will be amended.

There are probably errors with some of the times particularly the 32km walk as some people started early. Your times will also be corrected if you let the office know your actual time.

Statistics for those interested.
